

## Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are fed on improperly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and vigorous—you are fed up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting. The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run really injures the system. One may feel exhilarated and better for the time being, but in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence. Every ingredient entering into the world-famous "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement. The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherry bark, Bloodroot, Man-trake root and chemically pure triple-refined glycerine. ## WOULD-BE ROBBER A SUICIDE.

Kills Himself When in Danger of Being Captured.

Troy, Kan., Dec. 1.—Realizing that he was about to be captured in an unsuccessful attempt to rob the Bendena State bank at Bendena, Kan., five miles west of here, J. W. Harris, a farmer, aged thirty, placed a pistol behind his ear and pulled the trigger. He died three hours later.

Harris entered the bank at 4 p. m. when W. A. Gillen, the cashier, and Theodore Selb, a clerk, were preparing to close the bank for the day. Harris covered both men and commanded them to throw up their hands. He then ordered them to come out from behind the counter, pull down the window blinds and lock the doors. Selb went back behind the counter again ostensibly to pull down a window curtain, but in reality to reach a door which led into a back room. As Selb opened the door Harris fired one shot at him, but without effect, and the clerk escaped. Fearing capture, Harris calmly stared at Gillen a moment and then killed himself.

## HEINZE HELPS CREDITORS.

Increases Assets of Wrecked Aetna Bank of Butte.

Butte, Mont., Dec. 1.—Receiver Wilson of the wrecked Aetna bank of Butte has announced that he received a check from Augustus Heinze for \$100,000. Mr. Heinze—formerly was president of the bank but withdrew in 1903. Believing, however, that many depositors had not known of his withdrawal, although it was widely advertised at the time, and that through confidence in his reputation many of his friends may have lost their money, Mr. Heinze says in his letter to Mr. Wilson he contributes \$100,000 towards the bank's assets and forwards his check for that amount. The contribution should increase the bank's assets 20 per cent.

## HELD BY ARMED MEN

STARTLING STORIES OF SEIZURES OF LANDS BY COAL COMPANY AGENTS.

## BOUSTED BY CORPORATIONS

CLAIM LOCATORS ALLEGE THEY WERE FORCIBLY DRIVEN OFF THEIR LANDS.

Salt Lake, Dec. 1.—Charges that illegal methods, ranging in degree of lawlessness from secret rebates on freight shipments to violent seizure of lands belonging to others, the seizure being made and maintained by force of arms, were adopted by the Denver and Rio Grande railway system and its affiliated coal companies were made in the hearing before Interstate Commerce Commissioner E. E. Clarke.

George D. Halliday of Salt Lake City told of his effort to acquire title to a tract of coal land in Whitmore canyon, near Sunnyside. He organized the Halliday Coal company and undertook to mine coal.

Robert Forester, geologist of the Utah Fuel company, with J. Kipman and other men, came to him, he said, and told him that unless he got off the land they would jump his claim. Later, during his absence, armed men went in and took possession of his property, to which a man named Robert Kirke set up a claim.

Halliday testified that he attempted to contest Kirke's claim in the district court of the Third Utah district, but every decision was against him until he secured a transfer of the case to Salt Lake City.

Mr. Halliday told of several conversations with Robert Clark, superintendent of the Pleasant Valley Coal company, and other officials of the companies, in which sometimes threats were made against him and at other times efforts were made to buy him out.

## Driven Away by Armed Men.

After the Pleasant Valley Coal company caused Kirke to jump his claim, Halliday went back to the property, but was driven off by seven armed men and Kirke fired a shot at him. From the time Kirke jumped the claim, he testified, until he sold out his rights to the Pleasant Valley company, he was not permitted to go upon his land.

The afternoon session was enlivened by a story in which rifles, threats of violence and corporate revenge figured. Arthur A. Sweet testified that he had protested the location of a tract of coal lands by Charles Austin Owen, who filed on it as agricultural land.

The protest was upheld and Sweet filed on it as mineral land. When he went to take possession he encountered F. M. Wheeling and a Mexican, both armed with rifles, who drove him away.

Afterwards, he said, he secured two injunctions from the district courts of the state restraining the fuel company from interfering with him, but the injunctions were disregarded.

Finding that he could secure no capital, no rates and no cash, Mr. Sweet finally disposed of his claims to J. H. Judson for \$4,000, and they soon afterward passed into the hands of the coal company.

But this did not end Sweet's troubles. He said he had secured employ-

ment on the Rio Grande Western railroad, but was discharged through the influence of the coal company, his enemies made during the land deal.

## DENIAL BY SENATOR WARREN.

Affidavit of Special Agent Meyendorf Declared False.

Washington, Dec. 1.—Senator Warren, who has arrived in the city, made the following statement in contradiction of the affidavit of Special Agent Meyendorf of the general land office, made at Salt Lake City, in which Mr. Warren and his colleague, Senator Clark, were charged with conspiring with others to put a stop to investigations into charges made in connection with the entry of coal lands owned by the Union Pacific Railway company:

"If Meyendorf made such an affidavit he must have been indulging in pipe dreams. I am informed that Senator Clark never saw the man and never had any communication with him, oral or written. The idea of Senator Clark needing Meyendorf's assistance in his re-election is absurd, as Wyoming was practically solid for him and no candidate opposing.

"As for myself, I never knew that such a man as Special Agent Meyendorf existed until some time late in 1903 or in 1904, when I received a letter from him saying that he wished to see me; that he had heard that somebody had been writing me to his discredit; and asking if I would not let him know when I was in Cheyenne or Denver so that he might call; that we were brother soldiers of the Civil war, etc.

"In accordance with the request, I some months afterward informed him that I expected to be in Denver a few days later, sending him the date. He called, asking that I help to get him promoted to the position of special agent in charge or a place in the consular service, because neither his work nor the climate of Colorado entirely agreed with him. He based his

request to me on the grounds of his Civil war record, his friendship for my friends, Mark Hanna, Elmer Dover and others. He appealed strongly to my sympathy and I consented to mention his case to his superiors. He then volunteered the information that he had a lot of irregular and illegal coal claim cases made by parties in Colorado for land in Wyoming, said to be in the interest of the Union Pacific Coal company. He asked my advice how to proceed. I suggested that he follow the law and his instructions. I never read Meyendorf any private letters of his to Commissioner Richards and have no knowledge that such ever existed.

"As to the subject matter of the testimony referred to, I have had no connection with coal or other entries of the Union Pacific or any other company, or any other interest in coal than to have the ambition to have the people of my country get plenty of coal of good quality and at reasonable prices and that the world might know of the vast deposits of coal underlying the soil. And further than this I desire to say that anyone who accuses me otherwise, speaks falsely—no matter who, when or where."

## STATEMENT OF POLLOCK.

Read Into Record of Commerce Commission at Salt Lake.

Salt Lake City, Dec. 1.—The statement of Department Chief George F. Pollock of the interior department, which was given out in Washington Thursday, was read into the record of the interstate commerce commission here. Just before the evening adjournment of the coal land investigation Attorney Parley Williams for the Union Pacific read a newspaper clipping in which Mr. Pollock denounced the affidavit of Special Agent Meyendorf that Pollock had been instrumen-

tal in suppressing evidence against the Union Pacific Coal company. Mr. Williams asked that the telegraphic statement be received as evidence.

Commissioner Clark assented and J. T. Marchand, attorney for the government, was also permitted to place on record a news interview in which Mr. Pollock is quoted as calling the interstate commerce commission's investigation as a "piece of impertinence."

The day's testimony related chiefly to the methods by which the Utah Fuel and Pleasantville coal companies discouraged competition in the Utah fields.

## TO DISCREDIT A WITNESS.

Effort Made by Defense in Land Fraud Trial at Omaha.

Omaha, Dec. 1.—An effort was made by the defense in the Richards-Comstock land fraud trial in the United States district court here to discredit one of the government witnesses, Irvine D. Hull of Mirage, who announced himself as a professional land locator. It was claimed by the defense that Hull's testimony was given in consideration of his immunity from prosecution on charges in connection with the land fraud cases. Hull admitted having been arrested and bound over to the grand jury by a United States commissioner, but said no indictment was found against him.

Hull's testimony developed an agreement between himself and Thomas M. Huntington to secure soldiers' filings. The soldiers were to be given \$300 for their land after proving up. Preparatory to final proof they were to lease the land to Comstock, and Huntington was to get \$100 for each lease, and out of this \$100 the expenses and improvements were to be paid. When final proof was completed the consideration for each section was to be \$600. Three hundred dollars of this was to go to the soldier and the other \$300, which included the lease money, was to be divided between Huntington and James Hull, a brother of the witness.

## COMMENDING HIS COURSE.

President Roosevelt Has Received Many Communications.

Washington, Dec. 1.—Scores of communications have been received by President Roosevelt commending his course in dismissing without honor the members of the three companies of the Twenty-fifth infantry, some of whom were engaged in the trouble at Brownsville, Tex. They come mostly from the North and include many from persons who served as officers and privates during the Civil war and who have served with negro troops.

It is expected that as a result of the criticisms of the president, which have been made, a resolution will be introduced in congress calling for all the information in the war department, together with the president's action in the case. Meanwhile any further statement from the president on the subject is said at the White House to be very unlikely.

## Mexican Revolutionist Released.

St. Louis, Dec. 1.—Librado Rivera, one of the members of the alleged Mexican revolutionary junta arrested three weeks ago on complaint of the Mexican government, was discharged by United States Commissioner Gray. After reviewing the Mexican government's complaints, Commissioner Gray decided that the offense charged was of a political nature and for that reason not extraditable.

## Myers Case Goes to Supreme Court.

Kansas City, Mo., Dec. 1.—Justice Brewer of the United States supreme court has telegraphed the attorneys of Mrs. Aggie Myers, who is in the jail in Clay county, Mo., under sentence of death for the murder of her husband, that the supreme court would give them a hearing on their appeal for a writ of error as soon as they appeared to argue the case.

## THREE BANKS CLOSED.

Lack of Ready Cash Said to Be the Cause of Suspension.

Peoria, Ill., Dec. 1.—Three banking institutions in McDonough county, conducted by C. V. Chandler of Macomb, have closed. The banks are:

The Bank of Macomb, conducted by C. V. Chandler & Co., having deposits of \$450,000 and capitalized at \$50,000; the Chandler and Innes bank at Colchester, capitalized at \$25,000 and having deposits of \$200,000, and the Chandler and Smith bank of Bardo Philip, capitalized at \$25,000, with \$60,000 in deposits.

The money had been invested in McDonough county real estate. The immediate cause of the suspension is given as a lack of ready cash. The Macomb bank was responsible for the payment of the bonds of the Macomb and Western Illinois Electric railway, and when the bondholders demanded their money they badly embarrassed the three banks.

## Tranquillity in Cuba.

Havana, Dec. 1.—Reports received by Governor Magoon from thirty towns show that tranquillity reigns everywhere. A slight increase of yellow fever has been recorded. The total number of cases on the island is now thirteen.

# THE DAILY DISPATCH.

By INGERSOLL & WIELAND.

Entered at the post-office at Brainerd, Minn. as second class matter.

## SUBSCRIPTION RATES.

One Month.....Forty Cents  
One Year strictly in advance.....Four Dollars

SATURDAY, DECEMBER 1 1906.

THE Pine Tree Blaze has discovered that Col. Halsted was elected mayor of Brainerd at the recent election.

REGARDLESS of the high price of wood THE DISPATCH stands ready to take any quantity of it on subscription. The price does not scare us, and we will even accept it from delinquents.

WOULD you listen to this slam from the Pequot Enterprise: "A few years since Brainerd was turning out chiropractic doctors at the rate of one a minute. Now it has caught the automatic drama, vaudeville and sliding picture show fever."

ONE of the things Frank Eddy was thankful for on Thanksgiving day was that Gov. Johnson has said that he would retire from politics at the end of his next term, but he says he would be more "thankful" if he believed the governor meant what he said.

THE country publisher who clubs his paper with a cheap city daily or weekly is a chump. He may gain a few subscribers but he helps to build up an immense business for the other fellow through which the catalogue houses can reach the country buyer, thereby helping to divert home trade to foreign markets and does not derive any permanent benefit himself.

THERE is no reason why undue haste should be exercised in settling the selection of a speaker of the house of representatives. It would probably be better for the welfare of the state and the legislation enacted at the coming session if the matter was allowed to take its ordinary course and the members who have been elected by the people to represent them be allowed to get acquainted with what would be for the best interest of the state at large before they are induced to endorse some one's candidacy for speaker and the organization of the house. It's a sure thing that a great majority of the members are newly elected and are strangers to one another. Better let them get acquainted first.

THE city council of Crookston is to provide a way for the enforcement of sidewalk cleaning, and after the receipt is prepared, tried and found to be effective the city council of Brainerd will do well to borrow it. There is probably not a city the size of Brainerd in the state where less attention is paid to cleaning walks of snow and ice than in this city. Within two or three blocks

of the business center the snow is usually removed, but not always, and the Y. M. C. A. corner, the most prominent in the city, as every stranger who comes to town has to pass it in reaching the hotels, is an example. Here the general public are compelled to wallow through the snow and slush until the path is broken and frozen and then compelled to take to the street for fear of breaking a limb, and this is right under the shadow of the city hall where if an ordinance could be enforced the matter ought to be easy. THE DISPATCH does not wish to be misunderstood in having especially called attention to the Y. M. C. A. walks, as the neglect there is not more flagrant than in various other parts of the city, but none other is so prominent. It would seem that the police of the city might be instructed to have the owners of property in the business section at least clean the walks immediately after every storm and see that the order is enforced. The walks that were left to freeze with the slush and snow of the last storm will undoubtedly remain in their present condition until the warm sun of springtime relieves them of their burden."

## TO DISCUSS SOCIAL EDUCATION.

Congress at Boston Opens With a Large Attendance.

Boston, Dec. 1.—A congress to discuss "Social Education," a forward step declared to be demanded by the "complexities of modern life," was opened in this city with a large attendance. The congress, in which library associations, superintendents and teachers' organizations, mothers' and women's clubs, educational and industrial bodies and similar organizations of New England were represented, held two sessions. Governor Curtis Guild, Jr., of Massachusetts; Mayor John F. Fitzgerald of Boston, and President Charles W. Eliot of Harvard university welcomed the body. David Starr Jordan, president of Leland Stanford university, George H. Martin, secretary of the Massachusetts state board of education, were speakers.

The keynote of four of the departmental meetings was the aim to draw wider attention to the demand that the youth of today "receive systematic training for their duties in those civic and social groups in which they are to do their work in life."

## STRANGE CAUSE FOR STRIKE.

Railroad Tied Up Because an Engineer is in Jail.

Tucson, Ariz., Dec. 1.—The Sonora railroad, which is the Southern extension of the Southern Pacific system from Nogales, Ariz., to Guanimas, state of Sonora, Mex., is tied up as a result of a strike, which has as its object the securing of the release of Jesse M. Reitz, now held at Hermosillo on a charge of manslaughter. Reitz was the engineer of a passenger train which killed a Yaqui Indian while the latter was walking on the track near Hermosillo Saturday. Reitz was arrested and at a preliminary hearing was held for trial in default of \$5,000 bail.

By preconcerted arrangement all trains on the road were pulled into Hermosillo and abandoned by the crews, who refused to move the trains until Reitz is released. No trainmen can be induced to cross the line from Nogales to help break the strike. Representations have been made to the authorities at Washington and the City of Mexico.

## AMUSEMENTS

Mr. Walker Whiteside in "The Magic Melody."

Walker Whiteside appeared in Duluth Thanksgiving day and the News-Tribune has the following to say of his performance:

"Walker Whiteside grows in popularity in Duluth, even as his work grows in excellence. Yesterday afternoon and last night he played to houses that have the season's record for matinee and night, and his big audiences were enthusiastic in their appreciation. At both performances, the insistent and repeated curtain calls after the second act compelled his acknowledgment. His brief curtain speeches on both occasions were heartily applauded.

"The Magic Melody" is the story of a conflict in which love and genius oppose money lust and thirst for power and genius wins.

"Mr. Whiteside gave to his interpretation of the role of Helmar, the young genius whose heart and soul are for art and whose gentleness operates to keep him in the background, such expression as only he could give it.

"The seven members of the company are well selected."

### Musical Recital

Some fifty guests assembled at the home of Mrs. W. A. M. Johnston last Tuesday evening to listen to a piano recital given by Miss Theresa Shulz. Mrs. Johnston's recitals always offer a chance to hear good music well played but the one the other evening was unusually enjoyable. The program was varied in its nature ranging from the light gracefulness of Nevin to the great chords of Beethoven's famous Sonata Pathetique and was rendered throughout with appreciation for the different shades of feeling.

Miss Shulz played the entire program which lasted for over an hour without notes and with a sureness that students do not often display. Her fingering is so graceful that it is a pleasure merely to watch her hands as she plays. The hardest test on her technical skill was the last number on the program, Chopin's Revolutionary Etude. This is considered by pianists the hardest left hand exercise known. It was written by Chopin on his hearing of the fall of Warsaw, the capital of his native Poland. The music played by the left hand represents the din and thunder of the siege, and through this, distinct above the heavier chords run the short piercing cries of the composer's personal sorrow at the downfall of his city. It is a composition of wonderful emotional power, which Miss Shulz made her listeners feel as much as she excited their keen appreciation of her skill in rendering the difficult music.

The lighter pieces whose charm lies in their grace and delicacy Miss Shulz plays excellently. Nevin's "In My Neighbor's Garden" was the most pleasing of these. As Miss Shulz gave it, it fairly smelled of the spring, and resounded with the trills of birds.

Before several of the pieces rendered, Miss Shulz read short explanations of their origin or meaning that made them clearer to those who were not entirely familiar with the music.

The entire program given follows:

Beethoven.....Sonata Pathetique Op. 13  
Dennce.....Tarantelle A minor Op. 23, No. 4  
(a) Papillon Op. 31, No. 2  
(b) Mazurka in E flat, Op. 24, No. 4  
(c) Intermezzo en Octaves, Op. 43, No. 4  
Nevin....."In My Neighbor's Garden"

Short, pointed statements of methods and results in Crow Wing county are requested for this column. Address all communications to Farm Editor, Box 1516, Brainerd, Minn.

D. M. Rudd last week received a fine Duroc Jersey Boar which is a prize winner. With the advent of good sires in Crow Wing county the farming interests will take the rank among the county's industries that they are entitled to. It costs no more to raise a good pig than it does to raise a poor one right. And it does not pay to raise any pig unless it does get proper care and feed.

The best feed for the colt is good oats and bran, says Wallace's Farmer. Commence by giving it enough to nibble at, and when it begins to relish it give it plenty. Don't be afraid of giving the colt too much after it has once become accustomed to it. No ordinary mare will give milk enough to push the colt as it ought to be pushed. The colt usually does well enough for the first month. By the time it is two months old it is twice as heavy as it was when it came, and has no more and perhaps less milk than at first. Hence, if you are going to push it forward, you must give it additional feed, and nothing is better than ground oats and bran.

## SECRETS OF A UNION

WILL BE MADE PUBLIC AS A RESULT OF TRIAL OF TEAMSTERS IN CHICAGO.

### TO TURN STATE'S EVIDENCE

OPPONENTS OF PRESIDENT SHEA PLEAD GUILTY TO CHARGE OF CONSPIRACY.

Chicago, Dec. 1.—The secrets of the international Brotherhood of Teamsters of the United States are to be given to the public in a Chicago court. This sensational development was made a certainty when opponents of Cornelius P. Shea, president of the organization, who together with sixteen other members of the union were placed on trial on charges involving conspiracy during the teamsters' strike a year ago.

Preceding the taking of testimony in the case four of the defendants, led by Albert Young, a former president of the international brotherhood and now the head of a rival organization of teamsters, who for some time has been fighting Shea for control of the older organization, entered pleas of guilty and declared they would turn state's evidence. This caused a stampede among the attorneys for the union and a delay was asked for on the ground that the blow given the defense was too serious to overcome in a short time. The motion was overruled by the court and the trial was begun during the afternoon.

Assistant State's Attorney Holt opened for the state, tracing the history of the teamsters' strike in 1905 and blaming Shea and his companions for lawlessness and bloodshed. A crowd of union sympathizers who witnessed the proceedings denounced Young and his three companions, and the four men were given a police guard when they left the building. Those who pleaded guilty besides Young were William Kelly, business agent of the coal teamsters' union; Michael Murphy and Joseph Schultz, teamsters, all anti-Shea men.

### OPERATOR HELD TO BLAME.

C. D. Mattox Held Responsible for Southern Railway Wreck.

Lynchburg, Va., Dec. 1.—The cause of the Southern railway wreck near Lawyer's depot, in which President Samuel Spencer and his party of prominent New York and Baltimore men lost their lives, is laid absolutely at the door of C. D. Mattox, the operator in charge of the block telegraph station at Rangoon. Mattox, who disappeared after being relieved less than an hour after the accident, has not been found, despite the strenuous efforts of railway detectives.

An official of the Southern railway stated that the company was desirous of apprehending Mattox in order to secure a statement from him that might throw some light on the causes that led him to allow two trains in the same block at the same time. This official was not prepared to state whether or not the company would take steps to prosecute the missing operator, and he did not then know if he could be prosecuted under Virginia laws.

An examination of the telegraph sheets kept at the Rangoon and Lawyer's offices show that Mattox allowed train No. 33, the Jacksonville express, upon the block, the train passing his station getting a clear track from him at 6:05 o'clock. The operator at Lawyer's, the next station ahead, claimed that Mattox did not ask him for a "clear track" for No. 33 and he therefore did not know this train had passed Rangoon. The block sheet at Lawyer's bears out this claim. If Mattox had reported train No. 33 on the block to Lawyer's, there would have been no accident.

The condition of all the wounded in the local hospitals, including President Spencer's private secretary, E. A. Merrill, is very encouraging.

## TRIAL OF GILLETTE

PRACTICALLY CLOSED SO FAR AS THE TAKING OF EVIDENCE IS CONCERNED.

### DEFENDANT ON THE STAND

GOES THROUGH THE ORDEAL OF CROSS-EXAMINATION WITHOUT WAVERING.

Herkimer, N. Y., Dec. 1.—The trial of Chester Gillette for the murder of his sweetheart, Grace Brown, has practically come to a close so far as the taking of evidence is concerned. The defense, while reserving the right to swear one witness if it sees fit, rested in the afternoon. The remainder of the afternoon was spent by the district attorney in recalling several witnesses in rebuttal.

The defense swore several witnesses, but so little was expected of each that it was less than two hours after Gillette himself stepped down from the stand that Attorney Thomas announced that the defense rested. There were no really striking features of interest in the case outside of those furnished by Gillette's own testimony. He went through the ordeal of cross-examination without wavering in the slightest degree in his testimony as to the actual death scene on Big Moose lake. Gillette withstood the searching cross-examination at the hands of the district attorney astonishingly well. He coolly responded to the questions, even if it were nothing more definite than "I can't say," which proved his pet expression.

Gillette swore that many of the things he said and wrote and which the prosecution took as links in its chain of evidence, were simply falsehoods concocted for one reason or another and that many of the things he had done, and that the prosecution took as indications of guilt, were merely acts of cowardice.

When Gillette left the witness stand the defense called its eight or ten witnesses in quick succession. Some of them were called to give their opinions of Gillette's character and reputation. Some testified that his character was good, but the district attorney compelled all to admit that they were not then aware of Gillette's relations with Miss Brown.

There was some surprise shown when the district attorney allowed Gillette to leave the witness box without a more minute description of the incidents immediately preceding the girl's fatal plunge into the lake.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hays' Catarrh Cure. Send for circular free.
